House Rules

Your safety policy, enforced.

Aldridge Fonseca · Gitika Rath

Built on NVIDIA Nemotron + Fireworks

NVIDIA Fireworks

Fireworks: Deploy · with Microsoft & NVIDIA · Nov 2, 2026

WHY THIS IS NEEDED

One AI feature. Eleven days.

GROK ON X · DEC 29 – JAN 8

~3 million
sexualized images of real people

~23,000
appeared to depict children

AI agents share our platforms.

Moderate every interaction.

Agent → human

Agent → agent

51%
automated web traffic · 2024

CCDH estimate reported by The Guardian (Jan 22, 2026) · Imperva/Thales Bad Bot Report (2025).

WHY NOT JUST USE A FRONTIER MODEL?

Smarter model. Wrong tool.

COST

GPT-6.1 Sol

$182K

Opus 5.5

$605K

per month · 100M messages

WRONG RULEBOOK

~30%

harmful missed

Their lab's policy, not yours.

HARMFUL CAUGHT

GPT-6.1 Sol	70.0%
Opus 5.5	**67.6%**

REFUSES TO CLASSIFY

13%

Opus 5.5 · 434 of 3,340

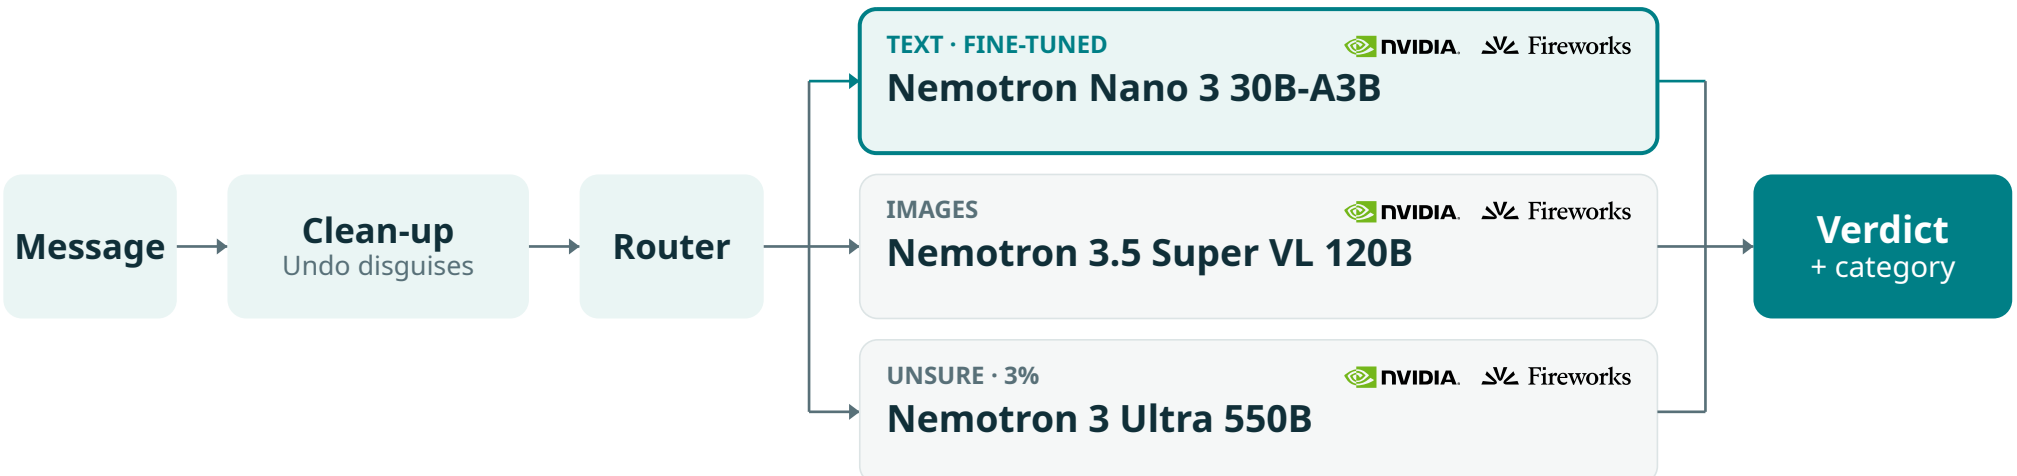

GPT-6.1 Sol	1.9%

A moderator that refuses is useless.

Held-out NVIDIA Nemotron Content-Safety policy test · n = 3,340 · same rows · refusals counted as wrong.

WHAT WE BUILT

House Rules

TRAINED ON

NVIDIA Nemotron Content Safety Dataset v3.5

19,806 rows · leakage-filtered

HOW · FIREWORKS TRAINING API

LoRA r8 · 1 epoch · ~15 min · 2× NVIDIA B200

Served on Fireworks: dedicated + serverless · firectl end to end
